Winter Wonderland Norwich

Magical Ice-Skating

Welcome

BIGGEST ICE-RINK OUSIDE OF LONDON

Dear Teacher / Group Leader,

Within this pack, we are delighted to present our Magical Ice-Skating packages, exclusively available to schools, colleges and universities this winter season.

We are now accepting bookings for November and December, so, secure the best prices direct with us today as these are not available online!

As well as being a fun and memorable experience, ice-skating supports physical education and sports premium funding objectives, making it the perfect opportunity to plan a visit to Norfolk's only real ice-skating rink and incorporate it into a creative cross-curricular experience.

If you have any questions or would like any further information, please do not hesitate to get in touch.

Warm wishes,

The Matthews Family

Winter Wonderland Norwich

Magical Ice-Skating Curriculum

FUN & CREATIVE LEARNING

Why Ice-Skating?

Ice skating supports the national curriculum across KS1, KS2, and KS3, while also meeting PE and Sport Premium funding requirements for primary schools.

In KS1, skating develops balance, coordination, and creative movement, supporting early PE goals through activities such as ice-themed dance and imaginative play.

At KS2, students build technical control, confidence, resilience, and teamwork. Skating can also support science, geography, and literacy through topics linked to ice, weather, and personal experiences.

By KS3, skating introduces greater physical challenges, improving strength, flexibility, and motor skills. It also supports choreography, performance, and peer evaluation, aligning with PE objectives focused on analysis and self-reflection. As an inclusive alternative to traditional sports, it broadens engagement.

Across all stages, ice skating combines physical activity with creativity, teamwork, and cross-curricular learning, helping students develop physical literacy and a lasting enjoyment of movement.
